Postdoctoral Position in the Fields of Theoretical Particle Physics, Astrophysics, and/or Cosmology
at
York University

Department of Physics and Astronomy, Faculty of Science

The High Energy Physics and Cosmology group at York University invites applications for a postdoctoral research position in the fields of theoretical particle physics, astrophysics, and/or cosmology. Applicants must have a Ph.D. in theoretical physics and a record of research excellence in one or more of these areas. The appointment is for two years, beginning fall 2015, with an extension to a third year upon mutual agreement.

Exceptional candidates will be nominated for the Banting Fellowship or York Science Fellowship. If successful, this would carry an increased stipend and travel budget. For further details on these opportunities, see:

http://banting.fellowships-bourses.gc.ca/home-accueil-eng.html or
http://science.yorku.ca/research/york-science-fellows/

York University is located in Toronto, Canada, in close proximity to the University of Toronto, CITA, Perimeter Institute, and several other leading research institutions. Information on the department can be found here: http://www.physics.yorku.ca.

To guarantee full consideration, candidates should apply through Academic Jobs Online by November 15, 2017.

However, applications will continue to be accepted until the position is filled. Please submit a cover letter, curriculum vitae, a research statement of no more than 3 pages which outlines one of your major research achievements and your future research plans, and arrange for three referees to upload their letters through Academic Jobs Online. For further questions, contact Sean Tulin (stulin@yorku.ca).
